

BUCKS in ACTION

On Friday, March 1, alongside Superintendent Trish Robinson, BHS Student Services, One Buchanan, and the Michigan Gateway Community Foundation, 27 of our BHS students attended a cultural competency workshop at the Buchanan Senior Center. Guest speaker Danny Sledge invited students to broaden their understanding of the diverse world around them, realizing that culture means more than just race or ethnicity. Through engaging discussions with their peers, students were encouraged to realize their similarities and differences and hopefully, increase in their empathy.
